WINTER C07
Dongshan Dist. Ponkans Picking
Dongshan District is home to a vast Ponkan (mandarin orange) plantation. During the flowering season, the roads along Ponkan farms are bathed in the aroma of Ponkan blossoms. Many people mistake the greenish peels of Dongshan Ponkan as a manifestation of immaturity. In fact, the sugariness, juiciness and tenderness of greenish Ponkan are what make the fruit attractive.

FUN WITH RICE AND WITHOUT RICE

Houbi Dist. Jingliao Community A05
With loamy soil and low-lying land favorable for water retention, Houbi District produces the best quality of rice. During the Qing dynasty, Houbi, which was hailed as Wujiajiang rice; it then was hailed as one of the major rice baskets in Taiwan with its production of Wujiajiang rice. In 2006, farmer Huang Kun-bin won the championship in the national rice competition with his Taiping No. 71 rice (Yiqun aromatic rice). His story was made into the documentary Let It Be, which was a hit and facilitated the promotion of rural rejuvenation programs, attracting more people to learn more about agricultural produces and rural villages.
